Why Sunbather

After pioneering the Solar Pool Heating industry in Melbourne in 1974, Sunbather to this day continues to be the industry leader, setting the standard for quality and innovation.

Industry Leaders Since 1974

Innovation is at the heart of Sunbather which has been recognised by the industry making Sunbather the most awarded pool heating and covers company in Australia.

Quality matters

Quality and reliability are critical. Our products are built to the highest standard utilising carefully selected high-grade materials and premium finishes.

Designed & built in Australia

Servicing Australia and New Zealand, Sunbather continue to engineer and manufacture a majority of our pool systems right here in Australia.

Contents

AstralPool Heat Pumps

HEAT PUMPS | INVERTER COMPRESSORS

ASTRALPOOL INTELLI-HEAT CONTROLLERS

	CODE	DESCRIPTION	PRICE
1	100622	Intelli-heat Controller - Intergrated	\$1,245.41
2	100626	Intelli-heat Controller - Independant	\$968.34

The AP Intelliheat is a plug-in controller that helps maintain your pool's optimal temperature beyond normal filtration hours. It periodically activates the pump to detect the water temperature and activate the heat pump if necessary. It comes in two models: one for an integrated pump and another for an independent heater circulation pump.

All AstralPool Heat Pumps come standard with an Overcover and Vibration Feet

Automatic CVX Covers

Covers

CVX FOAM-FILLED SLATS

COLOUR	CODE	DESCRIPTION	UNIT	PRICE
	500014	Cream White	m ²	\$495
	500015	Silex [Light] Grey	m ²	\$495
	500185	Arctic Blue	m ²	\$495
	500017	Steel [Dark] Grey	m ²	\$495

- Turn of a key to deploy or remove cover
- Patented CVX foam-filled slats
- Hail resistant
- Multiple installation options available
- Save water, heat, chemicals and money
- Climate Care Certified

Rollers | ON DECK

ON DECK TUBULAR ROLLER

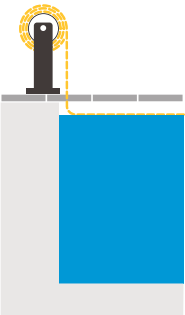

CODE	DESCRIPTION	OPTION	PRICE
500055	OD-T On Deck Tubular Roller	Standard	\$10,955

- 24v powered 200mm diameter roller with forward and reverse operating switch
- Connected to 240v mains with step down transformer to 24v motor
- 100mm x 100mm square end supports with base plate are fixed to the pool coping
- Heavy duty version for large pools is available
- Key switch control

Top Mount

Mount the cover and roller drive mechanism on top of the pool deck.

Suitable for retrospective installations.

Rollers | UNDER DECK

UNDER DECK TUBULAR ROLLER

CODE	DESCRIPTION	OPTION	PRICE
500090	UD-T Under Deck Tubular Roller	Standard	\$15,805
500089	UD-T Under Deck Tubular Roller	Heavy Duty	\$16,590

Standard

- 24v Tube motor (built into roller tube)
- Ideal for smaller pools, special designs and pools with low freeboard or high water lines
- Key switch control

Heavy Duty

- 24v Tube motor (built into roller tube)
- Suitable for the in-floor option or larger pools
- Key switch control

INSTALLATION OPTIONS

CODE	DESCRIPTION	UNIT	PRICE
500153	Cantilever Bracket	Each	\$1,455
500094	Pit Beam	Each (up to 4.5m)	\$3,730
500122	Tray Assembly	Each	\$3,730

Cantilever Bracket

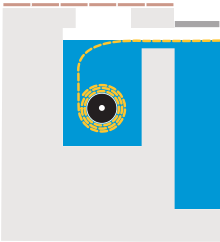

- Stainless steel cantilever brackets which eliminate the need for a beam and raised step over the pit. This allows for a 'same level' surface right around the pool and a standard freeboard
- Does not include installation

Pit Beam & Tray Assembly

- Suitable for in-seat or in-floor installations
- Includes fibreglass pit lid
- Pricing applies to pools less than 4.5m wide, greater than 4.5m is P.O.A

Raised Pit Canopy

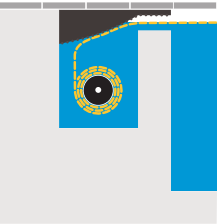

Mount the cover and roller drive mechanism in a water filled pit outside the pool and under an elevated canopy with a removable lid that must be made of timber with a concrete or steel beam.

Cantilever Pit Lid

Mount the cover and roller drive mechanism in a water filled pit outside the pool and under a removable lid that is level with the pool deck.

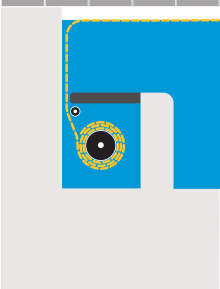

This option requires cantilever brackets to support the lid.

In-Seat

Mount the cover and roller drive mechanism under water in a pit with a fibre-glass or stainless steel lid that forms a pool seat.

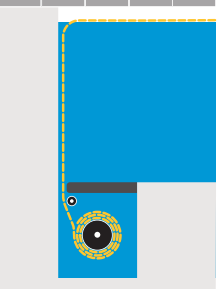

Seat Lid - stainless steel, fibreglass or tiled.

In-Floor

Mount the cover and roller drive mechanism under water in a pit below the pool floor with a fibre-glass or stainless steel lid.

Pit Lid - stainless steel, fibreglass or tiled.

Thermal Covers

A heated swimming pool left uncovered can lose twice its volume over one year. However, our Thermal Pool Covers will save 90% of this water and is exceptional at retaining heat overnight. Moreover, our Thermal Pool Covers will protect your pool from debris and algae-growing sunlight, causing your pool to require fewer chemicals. Therefore, you will save on energy, water and chemical costs.

- Sunbather Thermal Covers carry the Smart Approved Watermark and are Climate Care Certified
- High strength 2000 micron (2mm); 4000 micron (4mm) thickness's
- Excellent heat & thermal capabilities, keeping pools warmer
- They are arguably the best water saving device you can install in a home

Mesh Covers

Our Winter Mesh Covers will allow you to forget about your pool while you’re not using it during the colder months, saving you water, time and money. The lightweight super strong woven material is fitted tightly over the surface of your pool will ensure the water remains unaffected by leaves, dirt and debris. Sunlight is also kept out of the pool, reducing algae growth.

Our Winter Mesh Covers’ simple attachment method ensures quick and easy use.

When sizing a Mesh Cover add 400mm to the length and width of the pool

DownUnder Hidden Roller

If you are after a premium roller with a discrete architectural finish, all while maximising your pool area, look no further than our award-winning Downunder Roller series.

Our Downunder Rollers hide out of sight, leaving your pool area’s aesthetics uninterrupted by bulky poolside rollers. A precision-finished aluminium lid hides the Downunder’s robust stainless-steel roller underneath your deck, concrete or paved area.

DownUnder In-Deck/Pit | SUPPLY ONLY

CODE	DESCRIPTION	OPTION	PRICE
350000	DOWNUNDER - IN-DECK/PIT	Manual	\$4,990
350007	DOWNUNDER - MOTORIZED (WITH REMOTE)	Semi-Automatic	\$9,120

Supply only. Thermal cover not included.

Manual

- Designed specifically for concrete/timber pits or suspended below decking
- Includes a 114mm diameter one-piece aluminium roller, driven by low friction gears with 2:1 ratio that is operated by crank handle (included) from standing position
- Roller, right angle drive winder and the hinged anodised aluminium lid are all pre-assembled to the frame for ease of installation (Standard lengths available)

Semi-automatic

- Design is semi-automatic with motorised return / manual deployment
- Includes a motorised 150mm diameter one-piece aluminium roller, driven by an internal 240V motor approved to be within 'pool zone' with remote control
- Motorised roller and the hinged anodised aluminium lid are all pre-assembled to the frame for ease of installation
- Electrical GPO to be done by others (not Sunbather)
- Does not come with PVC enclosure

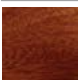

DownUnder In-Ground | SUPPLY ONLY

CODE	DESCRIPTION	OPTION	PRICE
350001	DOWNUNDER - IN-GROUND	Manual	\$6,360

Supply only. Thermal cover not included.

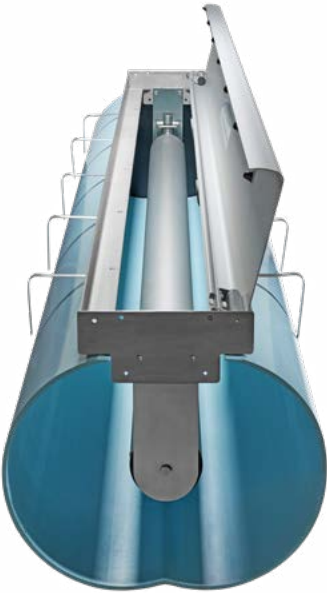

- Designed specifically for in-ground installations.
- Includes a 114mm diameter one-piece aluminium roller, driven by low friction gears with 2:1 ratio that is operated by crank handle (included) from standing position
- The Rollers, right angle drive winder and the hinged anodised aluminium lid are all pre-assembled in a PVC enclosure for ease of installation (Standard lengths available)

4.9m waterline width up to 4.5m

Please refer to the installation guide for more technical details

Domestic Rollers

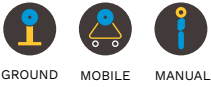

One of the most significant issues when covering a pool is where does the cover go? A roller not only stores and protects your cover but also makes its use so much easier.

We have roller solutions to suit any situation. Whether you want it kept on a wall, under a seat, wheeled away or completely hidden underground.

Although our rollers are fully compatible with most Thermal and Bubble covers, we highly recommend using a Sunbather cover matched with one of our rollers for superior longevity and reliability.

Platinum

CODE	DESCRIPTION	PRICE
300060	114 Platinum Roller	\$1,085

- Strong 114mm diameter one-piece tube
- Polished stainless-steel triangular end frames and handle
- Quality multi-directional castors
- 2 x 10mm drop pins that go into pool concourse/coping (12mm Drill holes required)
